

Workshop Terrarium

Create your own
indoor garden
harmonious

What is it ?

What could be more fun and creative than creating a mini indoor garden with your hands in the soil?

No need to have a green thumb for this plant workshop. You will discover the art of composing a harmonious indoor garden with living or stabilised plants. Your **Terrarium** will regulate itself and will be an almost autonomous ecosystem.

This floral bubble will undoubtedly bring a touch of nature to your home and will allow you to share a moment of relaxation and conviviality with your colleagues.

10 to 150
participants
