Blind Test Musical

Professional muscians in live !

What is it ?

While the concept of the blind test is common to all, the **Blind Test Live** is a little less so. It's a remote activity, ideal for evenings, that comes close to the real concert experience! Indeed, our collective of professional musicians will play live for you!

By video and with a background of popular songs from all eras and genres, your teams test their musical knowledge and their reactivity.

The aim is to be able to recognise the title and performer of a song by being the fastest to give the answer in the video conference chat!

20 to 700 participants

45 min to 1h

Remote

Organisation

Course of the activity :

Set up (D-7) - Musical Blind Test (45 - 60min) - Debriefing (15min)
