

DIY Cosmetics

Make your own
cosmetics and
everyday products

What is it ?

Beyond the pride of making your own **DIY objects**, this workshop calls for changing habits and thinking about your environmental impact in a fun way.

Put your teams into action with our DIY Cosmetics workshop. Your employees will be able to create their own everyday products or any other DIY objects from the 0-waste approach. They can choose their theme: home, bathroom, cosmetics, household products, etc.

In connection with the actions already implemented within your company, your employees will be able to act at their level and become informed consumers.

25 to 30
participants

1h30 - 2h

Remote

Organisation

Course of the activity :

Set up (D-I4) - Workshop (90min)

The «after» :
