

# Fresco Vegetal

DIY nature  
in person

## What is it ?

A collaborative and creative Team Building with a nature & CSR approach to bring greenery to your premises.

Each participant will contribute to the creation of a **tailor-made plant fresco** representing the slogan, logo, etc. of his or her company.

The fresco can then be installed in your workspace for a lasting and green souvenir. No excuses, the plant creation requires no maintenance and can last up to 7 years!
