

Master Class Oenology

A convivial moment in
the company of an
oenologist

What is it ?

The **Master Class Oenology** activity is dedicated to the discovery or rediscovery of wine, but also to deepening your knowledge of the art of tasting and oenology.

Guided by our oenologist, you will learn about the sense of smell and aromas, in order to better understand the power of your olfactory memory. You will then tackle the themes surrounding wine and finish with the practice of tasting. The objective at the end of the workshop is to be able to differentiate the wines and create a unifying moment with your team.

6 to 50
participants
